

FOR IMMEDIATE RELEASE:

FIA Expands, Opens Office in Boston, MA

Windsor, CT – January 26, 2012 Fiduciary Investment Advisors has opened a Boston office at 112 Water Street.

“We have experienced very nice growth in all areas of our business including, nonprofit endowment and retirement plans, corporate defined benefit plans and 401(k) plans and government retirement plans. We feel a presence in New England’s financial center makes sense to better service our existing clients in that area as well as to have an office to help recruit talented advisors and analysts to FIA,” said Mark Wetzel, FIA President.

Vincent Smith, AIF, will be the first consultant based in the Boston office. Vincent has over a decade of experience providing investment advisory services to retirement plans. His focus is on providing services to defined contribution retirement plan clients in both the corporate and tax-exempt markets. Prior to joining FIA in July of 2011, Vincent was a senior member of the consulting teams at Longfellow Advisors and Cammack LaRhette Consulting. He has a wealth of experience in providing consulting services on the investment due diligence process and completing comprehensive market review and benchmarking projects. Vincent’s clients include hospitals, higher education institutions and other corporate plan sponsors.

“I am excited about the opportunity to expand FIA’s presence in greater Boston and eastern New England,” said Vincent. “I feel a Boston presence will enhance our already robust client service model.”

About FIA:

Fiduciary Investment Advisors is an independent employee owned investment consulting firm that works with fiduciary clients including retirement plan sponsors, non-profit organizations, municipalities and wealthy families. Assets under advisement total more than \$20 billion.
